Dear Sirs

HEALTH AND SAFETY AT WORK ETC ACT 1974

FATAL INCIDENT INVOLVING [REDACTED]

I am writing following my visit to the Olympic Stadium, Queen Elizabeth Olympic Park, Stratford, London E20 2ST on 28 June 2015 where I met you and other members of your team. The purpose of my visit was to carry out an initial investigation with the Metropolitan Police into the fatal incident involving [REDACTED] earlier that day. So far as the fatal incident is concerned, our investigations did not identify the commission of any serious criminal offences (other than health and safety offences) or the commission of any health and safety offences. I am satisfied that this is not a work related death. Apart from gathering additional material to assist the Coroner in carrying out the Inquest, I confirm that we have concluded our investigations. As such I also confirm what the Police and I verbally told you on 28 June, namely that work can resume at site.

Yours faithfully

[REDACTED]

**HM Principal Inspector of Health and Safety
North East London Construction**
